PROFESSIONAL SUMMARY

Prolific, full stack web developer with a passion for metrics and beating former "best-yets." Delivered more than 25 projects meeting highest web development standards, with optimal performance benchmarks. Decreased rework by 22% and infrastructure costs by 50%. Consistently receive high user experience scores for all web development projects, including a 100/100 on Lighthouse Audit. Passionate about building world class web applications.

WORK HISTORY

OYO Rooms - Senior Frontend Developer
01/2020 - Current

- Part of consumer experience platform team, designing architecture and developing reusable modules and libraries for entire team.
- Developed an inbuilt library to replace moment (date management library) for performance. The inbuilt library is 2KB compared to moment's 60KB (gzip).
- Introduced critical CSS for OYO Rooms' website, leading to a boost in performance metrics, which further saw 30% reduction in bounce rate.
- Responsible for driving performance and security optimization across the consumer website.

OYO Rooms - Frontend Developer
05/2018 - 01/2020

- Part of consumer facing team, and responsible for converting business proposals to technology driven features.
- Responsible for designing and delivering the architecture of OYO Rooms Microsite, using **React decorators** to partner with other companies with minimal engineering bandwidth, which now drives ~50% of OYO website revenue.
- Responsible of revamping URL routing using NGINX reducing latencies per URL.
- Driving performance optimizations on the website, improving TTI, FCP, leading to 20% more user retention.
- Responsible of revamping UI/UX of entire user journey flow on Desktop and Mobile Web, which led to 40% revenue increase.
- Revamped OYO Rooms' mobile website offline user experience using service worker.
- Redesign users' session persistence leading to 70% reduction in infrastructure cost.

ACCOMPLISHMENTS

- Improved website's performance and latency leading to **Lighthouse Audit** score of 100/100 on all metrics.
- Invited to attend international conferences : Google I/O 2019, Google Chrome Dev Summit 2019, Google Perf Workshop 2019.
- Member of the team designing and developing OYO Lite, a TWA based mobile app (~800 KBs of size)
- Won 2nd Runners' up in OYO Rooms' Tech Conference for SimpleLogin Project, that improved user login on OYO Rooms website and app.
